

Basic

```
@include outer-container;

#include span-columns(6);

#include span-columns(6);
```

Multiple rows

```
@include outer-container;

(1) #include span-columns(11);
    #include omega();

#include span-
columns(2); #include span-columns(10);
            #include omega();

#include span-columns(3); #include span-columns(9);
                        #include omega();

#include span-columns(4); #include span-columns(8);
                        #include omega();

#include span-columns(5); #include span-columns(7);
                        #include omega();

#include span-columns(6); #include span-columns(6);
                        #include omega();
```

Nesting columns

```
@include outer-container;

#include span-columns(4);

#include span-columns(8);

#include span-columns(4 of 8);

#include span-columns(4 of 8);
```

Table grid

```
@include outer-container;

#include fill-parent();
#include row(table);

#include span-columns(4);
#include pad();

#include span-columns(8);
#include reset-display;
#include pad();
```

Shifting columns

```
@include outer-container;

#include span-columns(6);
#include shift(3);
```

Automatic rows

```
@include outer-container;

li.block {
  #include span-columns(3);
  #include omega(4n);
}

li.block li.block li.block li.block

li.block li.block li.block li.block

li.block li.block li.block li.block
```

Media Queries

```
@include outer-container;

$mobile: new-breakpoint(max-width 500px 4);

#include span-columns(4);

#include media($mobile) {
  #include span-columns(3);
}

#include span-columns(8);

#include media($mobile) {
  #include span-columns(3);
}
```
